THIS INSURANCE

Business is better This Way

This Insurance is an underwriting business delivering unique micro and SME products through a panel of UK insurance brokers. We are not just another distributor of Insurers' standard products.

Soon our business will be transacted through our electronic trading platform This Way, used both in-house by our underwriters and online by our brokers. This Way aims to combine the simplicity and ease of use of iQuote with a far wider (and growing) product range and far greater system flexibility - allowing us to write more business online.

Contact your dedicated underwriters to find out more.
